## JUSTICE W. B. WOODS DEAD

DEATH CAUSES A VACANCY ON THE

SUPREME COURT BENCH.

Gradually Sinking for Several Days, He

Passed Peacefully Away Unconscious of

His Surroundings—A Brief Sketch of the

Life of Another of Ohio's Sons.

JUSTICE WILLIAM B. WOODS

WASHINGTON, May 14.—Associate Justice

Woods, of the supreme court, died at 12:30

to-day. At 3 this morning his condition

changed for the worse. He soon became un-

conscious, and in that condition passed

away. He had long been suffering from

dropsy.

Justice Woods had had a distinguished pub-

lic career. He was born in Newark, O., and

graduated from Yale college in 1845. After

the usual course of legal study he was ad-

mitted to the bar and began to take an inter-

est in politics, making political speeches as a

Democrat and was elected to office by that

party. In 1858 and 1859 he was the Demo-

cratic speaker of the Ohio house of repre-

sentatives. At the outbreak of the civil war

he entered the Union army as lieutenant of

the Seventy-sixth Ohio volunteers. When

the army was mustered out in 1865 he had

won the rank of brigadier-general and brevet

major-general. He had served in Alabama

at the end of the war, and was so pleased

with the country that he began business life

again in Alabama, and was elected the state

chancellor in 1868, which office he resigned

on receiving his commission on the bench of

the supreme court, December 21, 1880.

SKILLFUL ENGINEERING.

Wonderful Work On the Mississippi at

Vicksburg.

NEW ORLEANS, May 16.—A Picayune

Vicksburg, Miss., special says: The most

successful piece of work that has been done

by the government engineers toward the im-

provement of the harbor of Vicksburg is the

revetment at Delta Point, which effectively

prevented indefinite recession of the

river from the city by stopping the rapid

erosion then going on at that place. This was

a great feat, but the indirect effects were

and are even more remarkable for the pro-

tection of the Louisiana shore.

The works have thrown the river in this

direction, the channel to this, instead of the

Louisiana shore, and are daily bringing the

river nearer to the city by causing it to cut

into the last bank from the west pass to a

point below Refuge mills. Last year this

progress was noticeably rapid and was evi-

dently increasing, and until the late rise in

the river a good deal of erosion was going

on at Klein's spring, many feet of the

shore having caved into the stream. It is

said by those who have studied the Missis-

sippi closely that whenever it makes a cut it

begins the work of making another bend.

To all appearances it is now engaged in the

latter task just below this city.

A long bar has been built by it below

Delta, and this is receiving additional contin-

ually, while the opposite shore is being cut

away. How far this process will extend has

never been estimated by an engineer, or at

least no publication has been made of such

an estimate except in an indefinite way, but

if experience is worth anything, it seems

reasonable to conclude that a few years will

find the river much nearer the highlands at

the foot of the hills between East Pass and

Refuge Mills than at present.

Fifteenth Round Settled Him.

ST. PAUL, Minn., May 16.—A plucky

contested glove fight took place at the Ol-

ympic theatre last night, between Jack Davis,

of Philadelphia, and Danny Needham, of St.

Paul. Davis fought upon the defensive

throughout, and with coolness and skill, but

was not quick enough for his wiry little an-

tagonist, and was knocked down in the third

and sixth rounds, and knocked outside the

ropes in the eighth, when the fight was given

to Needham by Referee Clow. Both were

bleeding profusely at the finish.

Color Line Splits Church Circles.

CHARLESTON, S. C., May 16.—The "color

line" occupied the attention of the Episcopal

Diocesan convention of South Carolina, all

day. The question was the right of the col-

ored clergy to admission to the floor as dele-

gates. The discussion elicited much feeling,

and resulted in the secession of the lay dele-

gates of fourteen parishes and the rectors of

St. Michael's, St. Charles, and Trinity, of

Abbeville, who opposed the admission of the

colored delegates.

The Captain's Son Drowned.

FRANKFORT, Mich., May 16.—The prop-

eller George D. Sanford caught fire on

Lake Michigan yesterday afternoon, scor-

ching her cabin and destroying a quantity of

freight. During the excitement Watson Mc

Gregor, son of the captain, fell overboard

and was drowned.

Local Yacht Struck.

MAYSVILLE, Kan., May 16.—The home

company who have been prospecting for

coal here have struck a thirty-three inch

vein at a depth of 231 feet. Arrange-

ments are being made to develop this,

while the drilling goes on to see what is be-

low.

Lawyer Charged With Forgery.

NEW YORK, May 16.—James Kearney,

lawyer, surrendered himself to the authori-

ties to-day. He pleaded not guilty to a

charge of forgery, on which a warrant was

out for his arrest. He is said to have de-

frauded various persons out of \$50,000.

## CANADIAN IRON DUTY.

The Rolling Mills Have to Close Up Unless

Something Is Done.

New York, May 16.—A Montreal special

to the Times says: The enormous increase in

the duties on iron ore like a thunder clap

on the manufacturers here, and is likely to

bring the government into some little

trouble. A number of the leading manu-

facturers were seen by a correspondent, and

nearly all said they would have to close up

certain lines of business and cancel a num-

ber of contracts.

They estimated their probable losses at

from \$15,000 to \$50,000 per annum. The

rolling mills will have to close up altogether

unless something is done, as the duty on the

raw material amounts to 55 per cent, and

that on the finished product to only 30 per

cent. Only one firm has so far attempted to

make pig iron in this country, and it is for

their special benefit the extra duty has been

imposed. The extra duty will probably have

to be taken off at once.

can Association Ball Games.

CINCINNATI, O., May 14.—Since last Sat-

urday the Reds have pulled themselves out

ers. They are but a few points behind the

Brooklyn for second place. The standing is

## Opium Smuggling.

SAN FRANCISCO, May 16.—The customs

officers to-day seized 115 cases marked "nut

oil" on the steamer Rio Janeiro, which ar-

rived from China on Wednesday. The cases,

upon being opened, were found to contain

hermetically sealed cans of opium, placed in

nut oil cans. The seizure is valued at \$30,000.

It is stated that treasury agents at Hong

Kong were cognizant that opium would be

sent by the Rio Janeiro, and the collector

was apprised by telegraph this morning. By

means of a large tempered-steel probe various

boxes, cases and baskets of a large consignment

of freight were searched through by the

customs officers, and the result of the in-

vestigation was the seizure of several piles of

goods.

## The Prince Sails for Home.

NEW YORK, May 16.—Prince Leopold and

suite, consisting of Count Kanitz and Baron

Nickisch and two men servants, sailed at 11

o'clock this morning on the North German

Lloyd steamship Eider. The prince arrived

in a carriage at the steamship docks at 10:30,

and immediately went on board. His name

appears on the passenger list as H. R. H.

Prince Frederick Leopold. Among the other

passengers in the Eider were Mr. and Mrs.

Henry E. Abbey, Mr. and Mrs. Charles

Mapleson, Count Lohli, Mme. Scaldi-Lohli

and Com. F. E. Chadwick, United States

navy.

## The McWha-Baker Murder.

ST. LOUIS, Mo., May 16.—The only im-

portant development in the McWha-Baker

murder case was the discovery of a celluloid

collar belonging to Baker, which had stains

upon it resembling blood, and a woman's un-

dergarment on which were bloody finger

marks. The coroner's jury recommends

that Baker be held for murder, and he has

employed counsel. The blood stains will

be submitted to a microscopic investiga-

tion.

## Railroad Collision.

MERIDIAN, Miss., May 16.—An extra engine

going south and a northbound passenger

train collided three miles north of Waynes-

boro, Miss., on the Mobile &amp; Ohio railroad,

last evening. Fireman Shenaght of the

extra was killed, and Engineer W. T. Tew,

Mail Agent Bell, and Conductor E. P. Hickey

of the passenger train were hurt. The ex-

press, mail and baggage cars were badly

damaged, and both engines were demolished.

## A Constitutional Convention.

It is to be hoped that the people of Kentucky will not lose sight of the fact that the question of calling a constitutional convention is to be voted on next August. The voters should see that the matter is settled in favor of the call. It has been talked of long enough. It is not a party question. Republicans and Democrats are alike interested.

The success of the vote next August depends largely upon the politicians, the active fellows, in the different parties. If the workers interest themselves and explain the matter, we feel that the convention will be called, and the Constitution will be revised. A revision is needed, all will admit. On this point the Frankfort Capital says: "The old instrument is as cumbersome and unsuited to the day and times as the clumsy and imperfect machinery of a quarter of a century ago is to the improved inventions of to-day. Kentucky has a great future, and she should prepare herself for it by unloading her superfluous hindrances and clothing herself in a living Constitution suited to the times."

The death of Justice Woods, of the United States Supreme Court, at Washington last Saturday, creates a vacancy for the politicians to worry the President over. There is abundant excellent material in the Democratic party for Cleveland to select from.

Last Wednesday, May 11th, was "immigrant day" at Castle Garden. Ten thousand foreigners arrived on that date, seeking homes in the "land of the free and the home of the brave." The largest number ever received before in one day was on May 19, 1873, when 7,852 were landed.

We are informed that the senior editor of the Republican during a quiet confidential-like talk the other day expressed an opinion that the new gas company had beaten the o. g. at its own game, so to speak, and that "settled it." Of course this all happened after he had announced that "the agony is over" and the "so-called Citizens' Gas Company is a thing of the past."

The far-seeing editor of the Republican crowed too soon over the fulfillment of his prophecy. And just to think of it! There wasn't any fulfillment after all. With what a serious mien and an awfully knowledgeable look did he promenade the street for a day or two! Ah there! "I told you so." It is rumored that he's going to "join a side show and pose as a prophet."

## A Printer's Error.

Sweet are the uses of adversity, the printer's copy said, but he set it up, sweet are the uses of adversity. Sweet, indeed, to those who in sickness and suffering have seen the advertisement of some sovereign remedy, which upon that trial has brought them from death's door. "The best thing I ever saw in my paper was the advertisement of Dr. Pierce's 'Golden Medical Discovery'." It is again and again the testimony of those who have been healed by it of lung disease, bronchial affections, tumors, ulcers, liver complaints and the ills to which flesh is heir.

## A Captain's Fortunate Discovery.

Capt. Coleman, schr. Weymouth, plying between Atlantic City and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is now the standard remedy in the Coleman household and on board the schooner. Free trial bottles of this standard remedy at the drug stores of J. O. Pecor & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

# OLD AND RARE BOOKS.

## A FEW ERRONEOUS IDEAS WHICH EXIST CONCERNING THEIR VALUE.

The Comparative Worth of an Old Book Dependent on Imprint, Authorship, Ownership, Edition and Condition—A List of Rare Volumes.

Not a few erroneous ideas exist about the value of old books. In order to correct some of these misconceptions I have concluded to take old books for my text. I may dispel some pleasant illusions, but if I do it is because I can't help it. Allow me to say in the first place that age is no criterion of value in books. The mere date of printing does not fix its value, though, of course, any book in fair condition bearing date earlier than 1476 is worth something merely on account of its approach to the date of the invention of printing. On the other hand, there are books as late in date as 1856 which are rare and which are much desired by a certain class of buyers. There is no rule for knowing the comparative value of an old book, because it may depend upon so many things, such as imprint, authorship, ownership, edition and condition. A New York lady recently came into the possession of a book which she supposed worth at least \$3,000. It was a fine large folio, in excellent condition and 250 years old. Imagine her disappointment when the highest offer made her for it was \$3. Its age, size and condition didn't count for anything. The book wasn't rare, and had no intrinsic value.

## "THE MARTYR BOOK."

I remember the excitement which existed some years ago over "The Martyr Book," printed at Ephrata, in this state, in 1747-48. It was noised abroad as a valuable find and exceedingly rare. What followed then? Why, no less than fifty copies of it were unearthed among the farmers of Lancaster county alone. And what followed next? A dead, thud like fall in quotations from \$120 to \$20 a copy. The quantity depreciated the quality; it wasn't exceedingly rare, after all. It deserves fame, however, as the first large book published in this state, and as an excellent product of the printers, papermakers and binders of that period. Almost as much zeal is shown in getting possession of old books with the Germantown imprint upon them. The first German books in the state were printed there. Some are rare and high priced; others are comparatively common.

There was a scurrilous epitaph on a "Certain Great Man" (Benjamin Franklin), printed anonymously in this city about 1763. It consisted of but eight pages, and yet a copy of it brought \$82 at the Brinley book sale in New York. There were only three copies known to be in existence. Mr. D. McN. Stauffer, editor of The New York Engineering News, one day picked up a pamphlet out of the dirt in the bottom of a closet, and found himself the possessor of one of the known three. You see, if you are looking for rare and valuable books, it is something to know which are rare and why they are valuable.

You are not always sure even in buying a rare book by catalogue. I clip the subjoined from a letter received by me to-day: "The 'German Heraldry' is an example of the danger of buying from foreign book catalogues. I sent for the two volumes, paying a good price for them. There was no evidence on the title that there were three volumes, and it was only upon plodding through the Latin text that I found reference to a third and missing volume. I attempted to sell the books as I 'had received them' to the German library in your city. There I met Professor Oswald Siedenstucker, a very learned German scholar, who knew all about the books and the fact that the rare 'third volume' always 'turned up missing.' I have the two volumes yet."

## EDITIONS OF SHAKESPEARE.

Among the rare books are the first folio copies of the early editions of Shakespeare. The rise in their commercial value can be seen in the following order of sale: In 1750 Garrick bought a copy for £1 16s.; in 1760 another copy brought £40 10s.; in 1818 George Grenville paid £121 for a copy; in 1847 the Hibbert copy sold for £155; in 1854 another copy brought £250, and in 1864 the Bardsley Burdett Courts paid £716 2s. for a copy. I hope this will not set you to skrimishing around for folio copies of the early edition.

Of the first edition of "Pilgrim's Progress," printed in 1678, of which no copy had been discovered when Southey wrote his "Life of Bunyan," there are two copies now known to be in existence. One is in the library of Mr. Halford in Gloucestershire, England, and the other in the Lenox collection in New York. Three years after the first London edition there was an American edition. The last lines on the title page were: "Boston in New England; printed by Samuel Green upon assignment of Samuel Sewall, and are to be sold by John Vaher, of Boston, 1681." The only known copy of this issue was stolen from the Lenox collection. If you should find it, or another like it, you can be sure that you have found a valuable prize. The first edition of Tyndale's New Testament, published in London in 1530, is quoted at big figures: "I will close by giving the names and dates of sundry rare American books and the prices obtained for them at the Brinley book sale in 1893: Colden's 'History of the Five Indian Nations,' 1727, \$320 (this is the book bought in the Judge Yeates lot for thirty cents); twelve pamphlets of the 'Paxton Massacre,' 1763-68, \$430; American Weekly Mercury, 1723-39, \$460; Cicero's 'Cato Major,' B. Franklin, printer, 1744, \$200; 'Kalendarium Pennsylvaniense,' William Bradford, Philadelphia, 1683, \$535; Colden's 'Encouragement of Indian Trade,' etc., 1724, \$685; Pennsylvania Gazette, Klemmer & Franklin's first newspaper, Philadelphia, 1723, \$530; 'Journal of Major George Washington,' Williamsburg, Va., 1754, \$550; Elliot's 'Indian Bible,' first edition; 1683, \$1,000; first edition of small copy of the same, 1683, \$550; second edition of small copy of the same, 1680, \$500.—Philadelphia Call.

Terrible Accident to an Aged Carpenter. INDIANAPOLIS, Ind., May 16.—Charles Shotwell, a carpenter, seventy years of age, met with a terrible accident late yesterday evening. He was at work upon the roof of a house, when, losing his hold, he fell a distance of twenty-one feet upon a picket fence, one of the pickets, fully three inches wide, passing entirely through his shoulder. He is suffering terrible agony, and will die.

Generous Rain Assures Good Crops.

HUTCHINSON, Kan., May 16.—The rain for the past few days has been general throughout the western portion of the state. At this place it has been pouring down for six hours, effectually settling the chinch bug question. The wheat crop and all kinds of small grains are assured.

## Child Killed by a Wild Beast.

NEW ORLEANS, May 16.—A colored child who went last evening with a party of black-berry pickers on the Dalgre place, ten miles below Baton Rouge, was torn to pieces by a wild animal supposed to be a panther. The other children saved themselves by taking to their heels, abandoning the youngest to its fate. The Louisiana tiger is by no means rare in the swamps of this state. One was killed in Ascension parish last year measuring over twelve feet in length. It had seized and made way with a cow, and was trailed by the cow's hoofs dragging on the ground.

## Killed in a Cyclone.

OMAHA, Neb., May 16.—The town of Blue Springs, a place lying one hundred miles southwest of here, was struck by a cyclone about 5 o'clock yesterday afternoon. The school-house, church and several other buildings were demolished. The janitor of the school-house, W. H. Rumbaugh, was buried in the debris of the building and received injuries from which he will die. Mrs. William Matthews was struck by lightning during the storm and instantly killed. The storm came from the southwest.

## Playing Ball With a Gun.

GREENSBURG, Ind., May 16.—Edward Wyne, a boy about sixteen years of age, living six miles northwest of this city, had his left arm shot away last evening about dusk while playing ball with another boy. They had been hunting, and on their return home commenced playing ball, and used the gun as a bat, and while doing so the gun was accidentally discharged with the above result. The arm was amputated by Dr. S. V. Wright.

## Rain Stops Forest Fires.

BRainerd, Minn., May 16.—Rain last night brought most timely relief from forest fires raging along the Mississippi eastward from Brainerd, that have destroyed large areas of pine timber and much ties, wood and logs on the river bank. A good many settlers also were about cleaned out, losing some stock and buildings. Upward of two townships were burned over before the rain came.

## Embezzling Treasurer Sentenced.

EVANSVILLE, Ind., May 16.—A Journal special says: In the Perry county circuit court, at Cannelton, J. M. Combs, ex-treasurer of Perry county, charged with embezzlement, was to-day sentenced to one year in the penitentiary and one dollar fine. The court immediately ordered his arrest. He embezzled some \$18,000. His attorneys will ask for a new trial.

# JUDGE PHISTER DEAD.

The Mason County Bar Loses a Prominent Member, and the City of Maysville a Distinguished Citizen.

A Brief Biographical Sketch of the Deceased—Arrangements for the Funeral and Burial.

Hon. E. C. Phister, died at half-past 10 o'clock yesterday morning at the family residence, on Third street. His critical condition had been known for some time to his family and his friends; but the announcement of his death was a sad surprise to many, owing to the fact that it had been reported in the past few days that there was a slight improvement in his symptoms and that he had been resting easier. Judge Phister's health had been failing for nearly a year. His decline seems to have been gradual but steady from the time it was first noticed. It was only, however, since the beginning of the year that he was compelled to give up his work, and remain away from his professional duties. He was suffering from a complication of diseases, which baffled the skill of his physicians. First there was a tumor of malignant character which was successfully removed. A month or so afterwards one of his eyes became affected. A visit to Cincinnati followed, and Drs. Ayers, Williams & Satler removed the affected member. The operation was successful, and hopes were entertained that he would soon be restored to his wonted health. After his return, however, he suffered greatly from a disease of the spine, and his physicians, both here and at Cincinnati, advised a trip to Hot Springs, believing that the waters of that famous health resort would prove beneficial to the Judge in his then condition and serve to tone up his shattered system. The trip was made, and it was not until then that his friends and family became fully aware of his critical condition.

The trip was a trying one and the treatment did not serve to check the onward march of the disease. The physician who was consulted at Hot Springs advised an immediate return home. This was about two weeks ago. He arrived here in a very critical condition, and his physicians realized that death was only a question of a few weeks, or a few months at most. Medical skill could avail nothing, except to alleviate the Judge's suffering in his last hours. In the past few days he rested much easier than he had been doing for some time. He grew weaker and weaker, however, until at last, at the hour named above, the slender thread of life was severed, and the spirit took its departure.

Judge Elijah Conner Phister was a native of this city. He was born October 8, 1822. His father, Conrad M. Phister, was of German descent, and was a native of Philadelphia, removing from that city to Kentucky and settling here in Maysville in 1811. The maiden name of Judge Phister's mother was Mary Conner. She was of Irish-English descent, and was a native of Maryland. Her marriage to Conrad M. Phister took place in Philadelphia. Judge Phister was educated at the Maysville Seminary and the Augusta College. He was a fellow student of General Grant at the Seminary, which, at that time, was in charge of Professors Rand and Richeesen, the latter of whom is at present living in Chester, and who is one of the oldest and most distinguished educators of Kentucky.

Judge Phister graduated from the Augusta College in 1840, a few months before he was eighteen years of age. He was the first Maysville pupil to graduate from that school. He afterwards read law at Philadelphia under Hon. John Sergeant, who is described as "one of the ablest jurists and purest public men in the United States," and who was a candidate for Vice President in 1832 on the ticket with Henry Clay. Returning to this city, Judge Phister studied with Payne & Waller, leading lawyers at the time, and was admitted to the bar June, 1844. At the January election in 1847 he was elected Mayor of this city, and was re-elected the following year. In 1856 he offered himself as a candidate for Circuit Judge, and in August that year he was elected, over Hon. W. H. Wadsworth. In 1867, he was chosen as Representative from this county, to the Legislature, and was re-elected 1869. In 1872, Governor Leslie appointed him one of the commissioners to revise the statutes of Kentucky, but the honor was declined. At the November election in 1878 he ran as the Democratic candidate for Congress, from this district, (then the Tenth) and was elected by 4,587 majority over three opponents. He was re-elected in 1880, defeating Hon. George M. Thomas by over 1,000 majority. His term in Congress closed his official career. He did not seek office afterwards. A few years ago he was solicited to become a candidate for Judge of the Court of Appeals, but declined. The fact that he was never defeated for an office is evidence of the

esteem and confidence in which he was held by the people. As a lawyer he was eminently successful, both in his civil and criminal practice. Collins, in his history of Kentucky, (to which we are indebted for much that is here written), says: "Judge Phister followed his profession, the idol of his early love, with an inflexibility of purpose which seldom fails to be awarded the very highest positions in the judiciary." He was considered, by men prominent in the profession, as one of the "ablest, firmest and purest of Judges." "He was popular and successful as an advocate and public speaker," adds Collins, "always earnest and eloquent, frequently brilliant and sparkling." In a biography of prominent Kentuckians published by Robert Clarke & Co., of Cincinnati, a few years ago, the author described Judge Phister as a person of most energetic, active temperament, rapid and skillful in his decisions; hardly ever escaped a point of law; seemed always equal to any emergency, without exhausting his resources; a fine speaker; a man of dignified manners; thoroughly devoted to his profession; had few equals on the bench, probably but few Judges having had a more satisfactory record or gained more admirers; his quick perception, urbanity and uncommon executive ability having rendered him exceedingly popular." The author alluded to accorded Judge Phister a front rank in his profession in this State.

On October 13, 1847, Judge Phister was united in marriage to Miss Jane A. Paddock, a daughter of Dr. Paddock, of this city. His wife and five children survive him. Of his children, Mrs. Anna C. Griffin lives in New York, and Mrs. Howell Finch in Texas. Frank K., the youngest son, is engaged in the real estate business at Decatur, Ala. The eldest son, Thomas R., is a prominent young attorney of the Mason bar. The youngest daughter, Miss Amy, lives in this city. Judge Phister leaves three brothers—Charles and Dr. John P. Phister, of this city, and Jacob Phister, of Denver, Col.—one sister—Mrs. Mary Ralston, wife of Rev. T. N. Ralston, of Newport,—and two half-brothers, Conrad M. Phister, of this city, and Chambers Phister, of Cincinnati.

Judge Phister was a member of DeKalb Lodge No. 12, I. O. O. F., and the burial will be under the auspices of that order. The funeral will take place to-morrow afternoon at 3 o'clock at the family residence, Rev. D. A. Beardsley, pastor of the M. E. Church, South, officiating, assisted by Rev. Russell Cecil, of the Central Presbyterian Church, after which the remains will be laid at rest in the cemetery. Hon. W. H. Wadsworth, Judge Emory Whitaker, L. W. Robertson and George W. Adair, of the bar, and N. Cooper, T. J. Chenoweth, Richard Dawson and B. A. Wallingford, of DeKalb Lodge, I. O. O. F., have been selected as pall-bearers.

**I. O. O. F. Notice.**  
The members of DeKalb Lodge, No. 12, I. O. O. F., are requested to meet at the Lodge-room at 2 o'clock p. m. to-morrow, to attend the funeral of Past Grand E. C. Phister. Sister Lodges fraternally invited.  
F. H. TRAXEL, N. G.  
JOHN THOMPSON, Secretary.

**Children's Day.**  
The Children's Day services at the M. E. Church, South, yesterday were attended by a large congregation both morning and night. The church was beautifully decorated with flowers and evergreens, and presented a lovely scene during the interesting services. The chandeliers were entwined with evergreens, and from each was suspended a bird-cage, from which the little cantary mingled its songs with the hymns of praise sung by the congregation. The order of exercises consisted of music, responsive readings, prayer, recitations and an address. At night the pastor's sermon was one of the ablest he has delivered in this city.

**Death of Mrs. Charles Bland.**  
Mrs. Elizabeth Bland, mother of Chester Bland, of this city, died early yesterday morning at the family residence near Shannon, at the age of about sixty-two years. She was the wife of Charles Bland, one of the prominent and successful farmers of that part of Meade County. Her maiden name was Piles. Her illness dated back seven months ago, at which time she suffered a slight stroke of paralysis, which finally resulted in her death. Mrs. Bland was the mother of nine children—three daughters and six sons—all of whom survive her, the youngest being eighteen years of age. The sorrow-stricken family have the sympathy of the community in their sad bereavement. The deceased was a devoted member of the M. E. Church, South. The funeral services will be held in the Shannon Church, this afternoon at 3 o'clock. Rev. D. A. Beardsley, of this city, will officiate, and will be assisted by Rev. J. W. Harris, pastor of the Sardis M. E. Church, South.

..... Nervous debility, in either sex, however induced, speedily, thoroughly and permanently cured. Address, with 10 cents in stamps for reply and book of particulars, World's Dispensary Medical Association, 603 Main street, Buffalo, N. Y.

# ANOTHER WRECK.

A Kentucky Central Passenger Coach Leaves the Rails and Loses its Trucks—No one Seriously Hurt.

Another wreck occurred on the Kentucky Central last Saturday evening between 6 and 7 o'clock. The accident occurred at a point about three miles this side of Carlisle, and near where the freight train was wrecked a few weeks ago. It was the passenger train due here at 8 o'clock which met with the mishap. While running at ordinary speed, the rear coach left the rails. The engine was promptly reversed, and the train was soon stopped. The trucks of the car were torn off, but outside of this the coach was not very much damaged. The passengers were tossed about pretty roughly for a few minutes, but all escaped without any serious injury. Several, however, sustained painful bruises. It was a fortunate thing for the many passengers aboard that the accident occurred in a deep cut. The employees of the road say that the trouble was caused by the spreading of the track, but a passenger who investigated the matter claims that it was all caused by a "rotten road-bed." It took several hours to clear away the wreck. The train arrived here between 3 and 4 o'clock Sunday morning.

# DUN'S BUSINESS REVIEW.

GREAT REVOLUTION IN BUSINESS NOW GOING ON.

The Interstate Commerce Law One of the Causes of the Present State of Affairs. Railroad Building Progressing—Business Failures Reported for the Week.

New York, May 16.—R. G. Dun & Co.'s weekly review says: A great revolution in business is going on. With radically conflicting accounts of serious losses at some localities and in some branches, and of wonderful gains at other places, or in other departments of trade and industry, the difficulty of reaching just conclusions respecting the general tendency is much enhanced.

The interstate act is but one of several causes which contribute to produce this revolution in commerce; expansion in the volume and change in the kind of currency is another not less important. Most unexpected results are produced; the interstate act clearly helps, some who bitterly opposed it, and as clearly injures others who expected great benefits from its operation. Thus the river business of the west is expanding under the influence of the law, and the railroads are at the same time getting larger earnings from the part of the traffic they retain, while not a few cities find, as Cincinnati does, that trade in many lines is greatly embarrassed.

One general tendency is disclosed by the urgent demands for suspension or change of the law, especially from those who most favored its enactment. Serious diversion of trade from western cities which have been chief centers of distribution is in progress, and a multitude of smaller towns are reaping the benefit. Western products do not as a rule gain any thing in eastern markets. If wheat has advanced 5 1-2c since the act went into effect, corn and oats have declined a fraction, pork is about the same in price, lard 1-2c lower, hogs 3-8c lower, and beef 1-4c at the same price. Cotton has been advanced 1-4c, but this change like the rise in wheat, is clearly speculative, and therefore threatens reaction through curtailment of demand.

Railroad building is not checked by the act as yet, and there is a probability that, by encouraging traffic at many instead of few centers of trade the law may tend to the building of numerous local roads and parallel or rival lines.

The output of pig iron again increases, reaching about 139,300 tons weekly May 1. But this is probably high water mark for the time, many furnaces in the Pittsburgh region having since been "banked" because of the coke strike, while our eastern furnaces discontinue production on account of rail rates. Enormous imports also tend to depression. The lockout of stove molders has increased in importance, and suspicions are growing that the manufacturers desire, through a general suspension of work, to reach a higher range of prices for products. Exports of wheat in April were 6,539,031 bushels, against 5,352,973 bushels last year, with 855,260 barrels flour, against 743,129 barrels last year.

Exports of breadstuffs reached \$12,534,439 in value, against \$11,959,948 last year, showing that the comparatively quiet market in that month favored large shipments. But rice has since climbed rapidly, with sales of nearly 80,000 bushels in a week, and exports are checked, while accounts of seedling show a great increase in acreage in Dakota and Minnesota. Cotton exports in April were reduced 38 per cent. compared with last year, the price have risen 16 per cent., while goods advanced only 3 per cent. Receipts are now barely a quarter those of last year, but crop prospects are more favorable. The lumber trade shows an increase of demand, with scarcity in some lines.

The business failures during the last seven days number: For the United States 135, for Canada, 32; total 167, against 182 last week, and 176 the corresponding week last year. Failures are decreasing in all parts of the country, except perhaps Canada and the provinces.

## SEIZURE OF THE BRITISH SEALERS.

The Canadian Government's Demand—Official Correspondence With Mr. Bayard.

Ottawa, Ont., May 16.—The correspondence with reference to the seizure of British Columbia sealers in Behring's sea was brought down in parliament last night. The Canadian government has demanded reparation from the United States for the seizures, but in his latest reply, dated in January, Secretary of State Bayard said he could not come to any decision until certain papers reached him from Alaska. In the meantime he gave instructions for the release of the sealers. Since then the captains of the vessels have put in large claims for damages. British Minister West, in conversation with Mr. Bayard, represented to him the unjustifiable nature of the seizures. Mr. Bayard contended that the United States had obtained a right to Behring's sea from the Russians. Mr. West then pointed out that when Russia had Alaska the United States government had contested claims similar to those it was now making, which Mr. Bayard admitted. Mr. West, however, in his dispatch to the Imperial government, says that Mr. Bayard was very conciliatory.

## Killed on a Curve.

EASTON, Pa., May 16.—Edward McGrath, David Laury and John Harrison, in getting out of the way of an approaching freight train this morning were struck by a passenger train on a sharp curve about seven miles west of Easton. McGrath was instantly killed, his brain being scattered along the track for a distance of one hundred feet. Laury had one arm broken and several gaps on the head and a number of bruises. The other man escaped by being knocked from the track by one of his companions. Laury was taken to the hospital and the body of McGrath to Bethlehem. The trio came from New York city and were looking for work. Each had a card of molder's union in his pocket.

## Found Floating in the Lake.

CINCINNATI, May 16.—The body of Isaac A. Moore, of the firm of Moore Brothers, furniture dealers, at 297 and 289 West Madison street, was found at 5 o'clock this morning floating in the lake near the Randolph street viaduct. Mr. Moore had been in bad health for some time, and it is believed he committed suicide while suffering from temporary aberration of mind.

## Odd Fellows' Block Burned.

NEEDHAM, Mass., May 16.—Odd Fellows' block, the largest business building in Needham, the railroad station and telegraph office were destroyed by fire, which broke out at midnight last night in the basement of the block. The building was erected ten years ago by the Odd Fellows' association.
